Possibility to wake-up with the lamp with "sunrise" effect, nature sounds, MP3, radio, melody.

## *Wake up with the sunshine!*

With Zen, Naf Naf finds a new way of waking up through the benefits of light therapy and its relaxing effect on your organism.

Before your alarm goes off, Zen lights up gradually, producing the effect of sunrise. This sunrise simulator effect helps you to wake up naturally and gently, feeling happy and relaxed. The alarm then takes over, gradually increasing the sound level during the first 6 minutes to wake you up steadily and without stress.

You can choose to be woken up with or without the light, and there are also 6 different sound alarms to choose from: the sea, the forest, the song of nightingale, or the more traditional sound of a tune, your favourite radio station, or your MP3 music through your device connected to the USB port. Gradual "sleep" function, the sound volume and the light gradually decrease.

"Snooze" key, alarm repeat. FM Tuner with digital display 20 presets. Auxiliary Audio Input (cable supplied). Adjustable "sunrise" simulator effect from 15 to 90 minutes. LED display with adjustable intensity. High power LEDs lamp 600 lumens with dimmer. Mood lighting with color change and automatic mix function. Charger USB port under Android. Backup functions 1 x 3v CR2025 battery (supplied). Dimensions: 310 x 100 x 100 mm. Mains supply. 2 years guarantee. Colors: red, black, purple, with rubber finish.
