6. Connected with computer through USB, the priority mode is to play music from computer. Aux cable is not needed.
7. Play music through bluetooth connection

V. Product Parameters

Product Model: QBT-220

Bluetooth Specifications: Bluetooth 3.0

Transmission Distance: ≤10M (depending on operation environment and devices to which it connects)

Impedence: 4Ω

Frequency Response: 90Hz-20KHz

Sensitivity: 80db±2db

Signal to Noise Ratio (SNR): ≥76dB

Output Power: 3W×1

Powered by Built-in Li battery/USB

Product size: φ62×76MM

VI. Power

Built-in Li battery/ USB/ USB DC5V

VII. System Composition

- | | | |
|----|-----------------|--------|
| 1) | Speaker | 1set |
| 2) | 3.5 Audio Cable | 1piece |
| 3) | USB Cable | 1piece |
| 4) | User's Manual | 1copy |

VIII. Function Introduction

1) AUX mode

Connect the speaker with audio device like computer/MP3/MP4/IPOD/IPHONE, press $\overline{\text{V-}}$ for 3 seconds to decrease volume, V+ for volume increase. Under AUX mode, press || for pause or playing

2) FM mode

Plug in AUX cable as signal antenna under FM mode. Press “Play/Pause” button for 3 seconds to search, save and delete channels. Press $\overline{\text{V-}}$ for last channel, V+ for next channel. Press V+ for 3 seconds to increase volume, $\overline{\text{V-}}$ to decrease volume.

3) BLUETOOTH mode

Change the mode into BLUETOOTH, blue light of the speaker will keep glistering. Switch on other bluetooth device like mobile, Laptop, etc to search for the speaker. When the speaker is found by the bluetooth device, match the 2 devices. If they're successfully matched, the speaker will beep. On the other hand, bluetooth device also displays information concerning successful connection. As the speaker is able to memorize the last paired device, it will automatically pair up with the device to which it connected successfully last time when turned on. If no bluetooth device is available after the speaker is shifted to BLUETOOTH mode for 5 minutes, bluetooth function of the speaker will close. For 2nd connection, please turn off the speaker, shift to BLUETOOTH mode and re-connect.

Remark: When connection fails, please double check if power is enough for the speaker; or turn off the speaker and switch on for trying again.

4) Music playing under BLUETOOTH mode

During music playing under BLUETOOTH mode, press $\overline{\text{V-}}$ for a long time for volume decrease, V+ for volume increase.

Remark: When the speaker plays music through bluetooth connection, music choosing or pausing is done on bluetooth device like mobile, Laptop. You can't choose music or pause by the speaker.

5) Hands-free call answering

When the speaker is playing music from mobile through bluetooth, the speaker will beep if somebody calls your mobile. Press ☎ on the speaker to answer the call with the speaker, repress ☎ to hand off. In bluetooth connection, press ☎ twice, the speaker can dial the last cellphone Number you called.

6) Switch on the speaker, connected with computer through USB, the priority mode is to play music from computer directly. AUX cable is not needed.

7) Recharge

Connect the speaker with computer through Mini USB, red light on the speaker will indicate it's been recharged. When red light is off, it's been 100% recharged.

IX. Compatibility

Wireless: Devices configured with Bluetooth 3.0 or higher version such as IPAD, IPHONE (at least the second generation IPHONE installed the IPHONE software 3.1), IPOD TOUCH and MAC as well as a majority of intelligent phones or computers that support Bluetooth.

BLUETOOTH: V3.0 consists of protocols like: A2DP, AVRCP, HFP

X. Troubleshooting

Faults	Solutions
Device does not turn on	(1) Connect speaker to power source
No signal under FM mode	(1) Check whether signal is available around (2) Check if Aux cable is plugged in as antenna
If signal around is not good, how to improve	(1) Plug Aux cable as outer antenna
