VII. Common Function Description

- **Power-on Status:** Press the Power Button to turn the speaker on and it beeps simultaneously with the blue indicator flashing. The volume is set to 60% by default.
- **Bluetooth Connection:** Once switched on, the speaker starts searching for other Bluetooth devices automatically and at the same time, the blue indicator goes on and off. When a Bluetooth device is found, the speaker prompts whether to pair up or not. Select yes, QBT-340 will pair up with the device, the blue indicator flashes slowly and a beep is generated by the speaker. If paring fails to detect any other Bluetooth device within 5minutes, the speaker will shut itself down. Turn it back on again to search again. All the paired devices will engage in automatic connection when the speaker is turned on.

Hints: Recharge the battery if connection is lost or if paring fails constantly.

Bluetooth Music Playback: When connected, the speaker plays music immediately.

Answering and Ending calls: After successfully pairing a mobile device, the speaker beeps when a call comes in. Press to answer the call press again to end the call. pick answer, press 🕝 once more to end the call.

AUX Playback: Use the supplied audio cable to connect the speaker to the music source (i.e. computer, iPod, iPhone, iPad etc...) by inserting one end to the speaker's AUX port and the other end to the music player's audio port. When the music player begins playing music, the speaker sounds right away. Tracks can be selected and volume adjusted on the music player only.

Intelligent Quick Recharge: Recharge can be performed in the standby mode or power-off situation. Before recharging, plug the mini-USB cable to the speaker's USB port and the other end to the USB port of the computer or the USB charger. When fully recharged, the red indicator light will turn off.

VIII. Compatibility

Wireless: Devices configured with Bluetooth 2.1+EDR or higher version such as iPad, iPhone (software 3.1 or higher), iPod Touch and MAC as well as a most Smartphone's or computers that support Bluetooth.

Bluetooth V2.1+EDR consist of protocols like A2DP, AVRCP and HFP
