3 Installation

The following illustration shows how to install the phone.

4 Operation

Answering a Call

An incoming call is indicated by a ringing tone of base units. You can answer the call by doing one of the following:

1. Pick up the **Handset** to answer the call.

Making a Call

Dialing with the Keypad

2. Enter the telephone number with the alphanumeric keypad.
3. After entering the number you want to call, press the # key to force dialing or wait for 4 seconds before the number is dialed automatically.

Using the Speed dial keys

You can use the 2 pre-assigned speed dial hotkeys, to configure the most commonly dialed numbers. Use the function to dial a number quickly, instead of keying in a complete number.

To call a number using speed dialing, follow the steps below:

4. Press the speed dial hotkey that has been pre-assigned to the phone number and the call will start automatically.

5 Support

To configure through the web browser, do the following:

- Ensure the phone is powered up and connected to a DHCP network
- Pick up the handset and then press *112*113#, the IP address is announced by the phone..
- Open your browser (such as Internet Explorer, Firefox, etc.) and type in the web address of the phone. For example, if the IP address you obtain in step 4 above is 192.168.1.2, enter the web address: <http://192.168.1.2:8000>.
- When the Web login front page is displayed. Enter the user name and the password and click **Login**. The administrator's user name and password are "**admin**" and "**1234**" respectively.
